Every piano built by the Walters Piano Company bears their name. This stands as a gilt-edge, ironclad guarantee for the highest quality ob-

practically a case of "tails you lose, heads I win." When a manufacturer is ashamed to put his name on his product it is perfectly safe to assume that there is something radically wrong with it.

Buying a piano with the name of Walt. ment as buying United States gold bonds.

There is only one best in anything, and in planes the Wakers is it. Every Walters Piano is guaranteed for a term of 10 to 15 years chich guarantee is inserted on the top lid of every plano. Many of the oremost American families are owners of Walters Planos, and you will find them in the studios of famous musicians.

In the 33 years of our mercantile career we have never sold an article that has given greater satisfaction or reflected a higher degree of credit on our establishment than the Walters Planos.

After subjecting the Walters Plano to the severest tests that the most critical musical talent can give a piano, we adopted it as our very own. That we acted wisely is abundantly evidenced by the fact that in the ten years we have sold thousands and thousands of these exquisite pianos.

From its very inception our piano business was a success, and to-day it stands far in the van of the world's piano-selling.

We have had many imitators, some of whom went so far as to claim to have originated piano-selling in department stores. Many of these imitators have faded away, others are prolonging their existence by gasps. None anywhere can offer pianos equal to the Walters Piano for double the
